## BOOKINGS

<https://www.trybooking.com/CDESf>

Integrity is an understanding of what is important to you and your capacity to enact the principles embodied by your sense of self in the larger world.

This 2-day training is to develop insight and skill for Leadership using the fundamentals of who you are. Your personal power, the privileges you own and the capacity to relate to others across our cultural spectrum all co-create the basis of your personal leadership style.

The program involves understanding personal and social identity and the dynamics of belonging within a community. The capacity for an individual to belong depends on accessing their many sources of power, personal and social privileges from their identity and/or their deep connection to spirit and Self.

*“Shy away from responsibility and you may not get the chance to grow”*

**Facilitator**  
**Alan Richardson**

Alan is a Psychologist in private practice in Brisbane.

He is also an educator in several universities and counselling training institutes. He has Masters Degrees in Education and Counselling as well as his university training in psychology.
